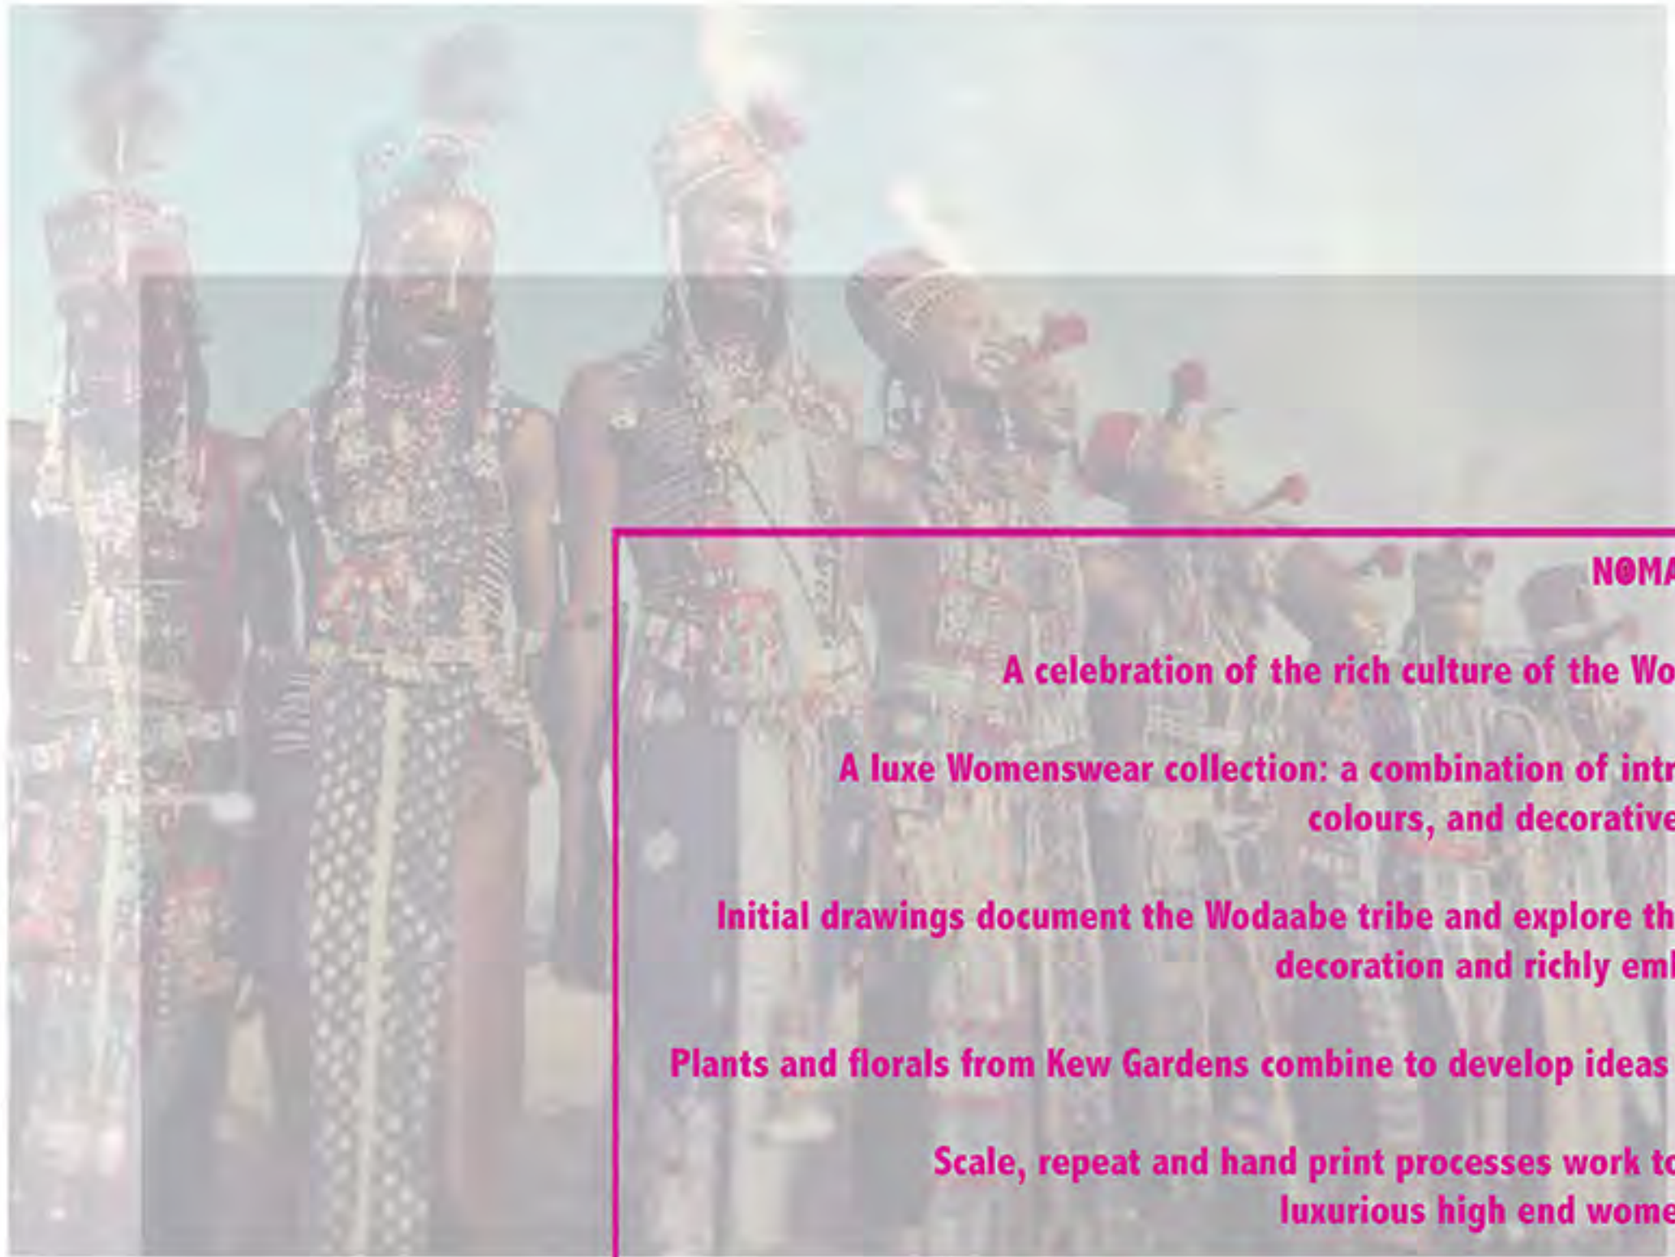
CUSTOMER PROFILE



NOMADIC TRANSLATION.

A celebration of the rich culture of the Wodaabe tribe, Chad.

A luxe Womenswear collection: a combination of intricate details, vivid colours, and decorative prints, for AW/18

Initial drawings document the Wodaabe tribe and explore their love of colour, decoration and richly embellished surfaces.

Plants and florals from Kew Gardens combine to develop ideas for layered prints.

Scale, repeat and hand print processes work together to create a luxurious high end womenswear collection.

Printed leather accessories and surface treatments, such as devore, cross dying and pigment printing, combine with mega frayed edges and tribal crowns, to create a visually dramatic mood and a directional fashion statement.
